**HERNANDO/CITRUS MPO ENDORSEMENT FOR ADOPTING THE  
TRANSPORTATION IMPROVEMENT PROGRAM  
(FISCAL YEARS 2025 – 2029)**

**Endorsement**

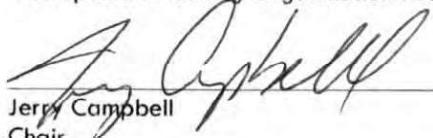

This document was prepared by the Hernando/Citrus Metropolitan Planning Organization (MPO) and is consistent with state and federal requirements, in cooperation with the Florida Department of Transportation (FDOT) District Seven Office, Hernando County Transportation Services, the Citrus County Engineering Division, the City of Brooksville, the City of Crystal River, and the City of Inverness.

The Hernando/Citrus MPO, at its regular meeting on June 6, 2024, endorsed the Fiscal Year 2025 – Fiscal Year 2029 Hernando/Citrus Transportation Improvement Program (TIP).

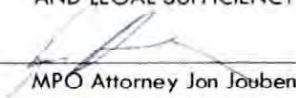

Further, it is hereby certified that the planning process of the Hernando/Citrus Area Transportation Study is being carried on in conformance with the provisions of 23 CFR 450.326(n)(1), 23 CFR 450.332(b), 23 USC 134, and Chapter 339.175 F.S.

This certification determination is being made based on an in-depth review, utilizing a checklist provided by FDOT and covering all aspects of the transportation planning process in the Spring Hill Urbanized Area, the Homosassa Springs-Beverly Hills- Citrus Springs Urbanized Area, and the remainder of Hernando County and Citrus County.

Metropolitan Planning Organization Board – June 6, 2024

MPO Attorney Jon Jouben

*Page blank for printing purposes*

## **Purpose Statement**

The purpose of the Transportation Improvement Program (TIP) is to identify transportation needs and priorities of the metropolitan planning area including regionally significant projects regardless of their funding source (23 USC and 49 USC, Chapter 53). The TIP demonstrates the process of prioritizing, selecting, and funding transportation projects in accordance with federal requirements of Title 23 CFR 450 and Title 49 CFR Chapter 53, as amended.

The Transportation Improvement Program (TIP) is a five-year (5-year) plan for the Hernando/Citrus Metropolitan area which encompasses Citrus and Hernando counties and the cities within their boundaries, i.e., City of Crystal River, City of Inverness, and the City of Brooksville, respectfully. The plan includes the multi-modal project improvements consistent with the Long-Range Transportation Plan (LRTP) and is updated annually.

The TIP is developed through a continuing, comprehensive, and coordinated effort with the Florida Department of Transportation (FDOT), Federal Transit Administration (FTA), Hernando/Citrus Metropolitan Planning Organization (MPO), and the public.

## **Public Participation Process in the 5-Year TIP**

The adoption of the Transportation Improvement Program (TIP) of the Hernando/Citrus Metropolitan Planning Organization (MPO) is conducted pursuant to the Public Participation Plan (PPP) process which was updated December 7, 2023. The process includes the review and recommendation of the TIP by the MPO's public committees, i.e., the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and the Bicycle/Pedestrian Advisory Committee (BPAC). The MPO Board will review and approve the TIP and provide it to the Florida Department of Transportation pursuant to law (Chapter 339.175 (8)). The MPO committees reviewed the Draft FY 2024/2025 – FY 2028/2029 TIP on May 23, 2024. The Draft TIP for FY 2025 – FY 2029 was posted on the MPO's website for a 30-day public review comment period ending June 6, 2024.

## **Project Selection Process**

The federally funded projects included within this TIP were selected in accordance with Title 23, CFR 450.332(b). The project selection process involves the FDOT, FHWA, FTA, the Hernando/Citrus MPO, the Local Public Transit Agencies, Community Transportation Coordinators (CTCs), and the municipalities within the MPO's urbanized area. Projects funded by Title 23 and Title 49 funds and all regionally significant projects in this TIP reflect Year of Expenditure (YOE) costs based on the year in which funding is anticipated to be available consistent with the requirements of 23 CFR Part 450.326(a) and Chapter 339.175(8), F.S.

The contents of this TIP were developed consistent with requirements from the most recent federal transportation authorizing legislation known as the Infrastructure Investment and Jobs Act (IIJA) also known as the "Bipartisan Infrastructure Law" (BIL) which was signed into law on November 15, 2021. This act was the successor to the "Fixing America's Surface Transportation Act" (FAST Act) passed in 2015. Based on the fact sheet produced by the Federal Highway Administration, the FAST Act added two planning factors which sought to improve the resiliency and reliability of the transportation system; (1) reduce or mitigate storm water impacts of surface transportation and (2) enhance travel and tourism. The BIL also retains many of the planning requirements and programs from the already established FAST Act requirements for highway, transit, pedestrian, and bike programs and policies initially established in 1991 through the Intermodal Surface Transportation Efficiency Act (ISTEA).

## Consistency with the 2045 LRTP and MPO Area Plans

The adopted Hernando/Citrus TIP is consistent with the following Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) work program development requirements:

- Only major categories of federal and state funding are included within the TIP.
- The federally funded projects within the TIP have been reviewed and found to be consistent with the MPO priorities as determined through the project selection process.
- The projects selected for the Hernando/Citrus TIP are consistent with:
  - FDOT's 5-Year Work Program and Strategic Intermodal System (SIS) Plan
  - The Brooksville-Tampa Bay Regional, Crystal River, and Inverness Airport Master Plans
  - Hernando/Citrus MPO 2045 Long-Range Transportation Plan
  - Hernando County Transit Development Plan
  - Citrus County Transit Development Plan
  - Transportation Disadvantaged Service Plans (TDSP) for both Hernando County and Citrus County
  - Hernando County Comprehensive Plan
  - Citrus County Comprehensive Plan
  - City of Brooksville Comprehensive Plan
  - City of Crystal River Comprehensive Plan
  - City of Inverness Comprehensive Plan

## Amendments and Modifications to the 5-Year TIP

### Amendments to the Transportation Improvement Program

An amendment is a revision to a TIP or STIP that involves a major change to a project in a TIP or STIP, including addition or deletion of a project, a major change in project cost, project phase initiation dates, or a major change in design concept or design scope (i.e., changing project termini or the number of through traffic lanes). [23 CFR 450.104] An amendment requires public review and comment, demonstration of financial constraint, or a conformity determination, if applicable. TIP Amendment requests are made by the District to the MPO and require MPO Board approval. TIP Amendments being brought before the MPO Board that affect projects in the first three years of the TIP must be approved by the MPO Board with a recorded roll call vote of a majority of the membership present. [Chapter 339.175, F.S.]. TIP modifications or amendments will be processed through the MPO Document Portal, which then notifies the appropriate agency contacts for review. Amendments to the TIP after adoption will be reflected in the index in Appendix A.

### Modifications to the Transportation Improvement Program

An administrative modification is a minor revision to a TIP that includes minor changes to project/project phase costs, minor changes to funding sources of previously included projects, and minor changes to project/project phase initiation dates. An administrative modification does not require public review and comment, redemonstration of fiscal constraint, or a conformity determination, if applicable. [23 CFR 450.104]. Modifications to the TIP after adoption will be reflected in the index in Appendix A.

## Performance Management

The TIP considers potential projects that fall into specific investment priorities established by the MPO in the Long-Range Transportation Plan (LRTP). For the Hernando/Citrus MPO this includes safety programs such as:

- Continued involvement and support on the Community Traffic Safety Team (CTST) and the Safe Routes to Schools (SRTS) program to address infrastructure or behavioral safety.
- Infrastructure improvement examples include installation of flashing signals or beacons, roadway lighting, traffic calming, and traffic signals.
- Behavioral safety examples include Safe Routes to School (SRTS) education/enforcement activities, and pedestrian/bicycle safety education.

The TIP includes specific investment priorities that support each of the MPO's goals including safety, using a prioritization and project selection process established in the LRTP. The TIP prioritization process continues to use a data-driven method and stakeholder input to evaluate projects that have an anticipated effect of reducing both fatal and injury crashes. The MPO's goal of reducing fatal and severe injury crashes is linked to this investment plan and the process used in prioritizing the project is consistent with federal requirements. The federally required performance measures were incorporated into the Hernando/Citrus MPO's Congestion Management Process initially in 2017 and have been updated as required by law. The specific performance measures address the following:

- Safety (Fatalities and Severe Injuries)
- System Performance (Reliable Travel Time)
- Goods/Freight Movement (Reliable Travel Time for Trucks)
- System Preservation (Pavement and Bridge Condition)
- Transit Asset Management

State DOTs are required to establish statewide targets for the required performance measures and MPOs have the option to support the statewide targets or adopt their own. Currently, the Hernando/Citrus MPO has adopted the FDOT performance targets to be in compliance as shown in Performance Management Requirements for Hernando/Citrus Metropolitan Planning Organization Transportation Improvement Programs. These performance measures and targets only apply to the National Highway System (NHS) which includes the Interstate Highway System and typically the Principal Arterials. The adopted resolutions establishing the performance measures are shown in Appendix B. NHS roadways in Citrus and Hernando Counties include the following: Interstate 75 (I-75), US 19, US 301, US 41, US 98, SR 44, SR 200, SR 50, and SR 589 (Suncoast Parkway).

The TIP is implementing transit safety investments by including the purchase of capital to meet transit needs is anticipated to achieve the targets for reducing system failures. The projects contained in the TIP are consistent with the Public Transportation Agency Safety Plans for Hernando and Citrus counties and service to align the schedule of needs in the TIP with the goals, objectives, strategies, and investment priorities from their safety plans consistent with the 2045 LRTP.

## **List of Priority Projects (LOPP) for Major Improvement & Congestion Management and List of Priority Projects for Transportation Alternatives**

The Hernando/Citrus MPO is responsible for annually developing a List of Priority Projects (LOPP) for Transportation Priority for Major Improvement & Congestion Management and a List of Priority Projects for Transportation Alternatives and submitting the list to the Florida Department of Transportation (FDOT) for consideration during the development of the 5-Year Work program for the MPO area. The MPO, working through its Technical Advisory, Bicycle/Pedestrian Advisory, and Citizens Advisory committees (a part of the public participation process), prioritizes projects based upon projects identified through the Cost-Feasible Plan of the 2045 Long-Range Transportation Plan (LRTP).

This prioritization will also incorporate Complete Streets elements that rely on FDOT's Context Classification process. This will allow FDOT to review projects on the state system with the goal of applying Complete Street features wherever possible. On local facilities, it would also allow the MPO to suggest Complete Street features to the extent possible.

The LOPP includes a list of projects involving major improvement and congestion management and a separate list of transportation alternatives projects. These lists contain projects that are considered of highest priority for improvement by the MPO and its advisory committees. The criteria for the prioritization of transportation projects include existing and projected facilities levels of service, safety considerations, anticipated funding levels, ability to complete the project, and overall modal performance and system connectivity. Consistent with federal requirements and the 2045 Long-Range Transportation Plan (LRTP), the prioritization process considers the recommendations of the MPO Board's advisory committees (Technical Advisory Committee, Citizens Advisory Committee, and the Bicycle/Pedestrian Advisory Committee). Also consistent with the adopted Public Participation Plan (PPP), the MPO Board conducts a public hearing to adopt the Transportation Improvement Program (TIP). The MPO List of Priority Projects (LOPP) approved by the MPO Board can be found in Appendix C.

## **Glossary of Terms, Abbreviations, Funding Types/Codes, and Acronyms**

The 5-Year Transportation Improvement Program (TIP) incorporates terms, abbreviations, funding types and codes and acronyms that are common in the day-to-day activities of those individuals/agencies involved in transportation planning. For the clarification of any of these items used within the TIP, an Appendix D is a useful illustration of what the terms mean or represent. Funding types/codes can be found in Appendix E.

## **FDOT's Tentative 5-Year Work Program Public Hearing**

The FDOT conducted an on-line Public Hearing on October 23, 2023, for the 5-Year Tentative Work Program that provided interactive maps, videos, downloadable/searchable documents, and opportunity to comment on projects. The District also hosted a Districtwide Open House on Thursday, October 26, 2023, from 9:00 am to 6:00 pm at the District 7 office at 11201 N. McKinley Drive, Tampa, FL 33612. On October 25, 2023, the District 7 team provided highlights from the Tentative 5-Year Work Program at the public meetings of the Technical Advisory Committee, Citizens Advisory Committee, and the Bicycle/Pedestrian Advisory Committee. On November 2, 2023, the District 7 team presented highlights of the Tentative 5-Year Work Program to the public meeting of the MPO Board. The public was encouraged to provide comments through the District 7 Work Program website or by submitting comments in writing. The public comment period ended on Monday, November 13, 2023.

## Regional Coordination Efforts

The Hernando/Citrus MPO is a member partner in the Suncoast Transportation Planning Alliance (SCTPA) formerly known as the MPO Chairs Coordinating Committee (CCC) of West Central Florida. It is comprised of Hernando/Citrus, Hillsborough, Pasco, Pinellas, Polk, and Sarasota/Manatee Metropolitan Planning Organizations (MPOs) and Transportation Planning Organizations (TPOs). The SCTPA provides for a coordinated working forum and process to allow for comprehensive planning with District partners/agencies.

The SCTPA works as a region to prepare plans, studies, and priorities for regionally significant projects, review the impact of significant land-use decisions, share current travel data and trends, and adopt regional transportation plans and priorities for highway, public transportation, and multi-use trail improvements. As the region stands to see continued growth in population, economy, and travel, the SCTPA will provide sound, forward-thinking transit and transportation options to support this growth and a sustainable future for our region. The SCTPA conduct monthly meetings of its partner directors to allow for networking and collaboration on projects and processes. On a quarterly/semi-annual basis, meetings with member MPO/TPO Board members and directors occur allowing for engagement of leaders in the process of establishing priorities and understanding the needs of the communities involved. Regional transportation priorities of the SCTPA include:

- I-75 Interchange at Gibsonton Dr
- I-275 Express Lanes from I-375 to Gandy Blvd.
- I-275/SR 60 Tampa Westshore District Interchange Phase 3
- SR 54/US 41 Intersection
- US 41 from SR 44 to SR 200
- Desoto Bridge Replacement
- Bradenton-Palmetto Connector
- I-4 and the SR 33 Interchange Design and Construction (Exit 38)
- Downtown Lakeland Intermodal Transit Center
- Regional Rapid Transit in the I-275 Corridor
- Regional passenger rail transit connection between Tampa and Orlando

### *Trails:*

- Three Sisters Springs Connector Multi-Use Trail (Citrus County)
- Orange Bell - Segments 4, 5, and 6 Multi-Use Trail (Pasco County)
- Starkey Gap Overpass (Pasco County)
- Upper Tampa Bay Trail - Suncoast Trail Connection (Phase IV) (Hillsborough County)
- South Tampa Greenway (Hillsborough County)
- Tampa Bypass Canal Trail (Hillsborough County)
- Adamo Drive Trail (Hillsborough County)
- South Coast Greenway Multi-Use Trail (Hillsborough County)
- Gandy Bridge Connector (Hillsborough County)

- Dale Mabry Overpass (Hillsborough County)
- Pinellas Trail Loop - gandy Blvd (Pinellas County)
- Joe's Creek Trail (Pinellas County)
- Legacy Trail Overpasses (Sarasota, Manatee Counties)
- Fort Frazer Trail Bridge (Polk County)

## **Summary of TIP Projects for Fiscal Year 2025 through Fiscal Year 2029**

The 5-Year Transportation Improvement Program (FY 2025 - FY 2029) is based on input from the FDOT. It incorporates the major bridge, highway, rail, intersection, maintenance, repair, reconstruction, replacement, transit, and new construction projects currently programmed for accomplishment by federal, state, and/or local funds in the Hernando/Citrus MPO planning area. The summary can be found in Appendix E.

The primary purpose of this section is to provide details of area priorities, funding, phasing, cost estimates, and the timings of the Hernando/Citrus MPO improvements projected for implementation.

### **Projects on the Strategic Intermodal System (SIS)**

Project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase, and a Construction (CST) phase. Some projects may not have a ROW phase if land is not needed to complete the project. SIS projects will have historical costs, five years of the current TIP and five years beyond the current TIP. If there is no construction phase on the TIP page, then the entry may not be reflective of the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the State's largest and most significant commercial service airports, spaceport, deep-water seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways, and highways. All projects on the SIS will have a SIS identifier on the TIP page. The LRTP reference on the project detail page provides the information necessary to locate the full costs and/or additional details in the 2045 LRTP.

### **Non-Strategic Intermodal System (SIS) Projects**

The project production sequence contains a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase, and a Construction (CST) phase. Some projects may not have a ROW phase if land is not needed to complete the Project. Costs on the TIP pages for projects not on the SIS will have historical costs and five years of the current TIP. If there is no construction phase on the TIP page, then the entry may not be reflective of the total Project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

For costs beyond the five-year cycle, access to the LRTP is provided. The LRTP reference on the TIP page provides the information necessary to locate the full Project costs and/or additional details regarding the Project in the 2045 LRTP. If there is no LRTP reference in the TIP, full Project costs are provided in the TIP.

## Annual Listing of Obligated Projects

Pursuant to the provisions of 23 CFR 134 (j)(7)(B) and 49 USC 5303(c)(5)(B), and Subsection 339.175 (8) (h), F.S., the MPO has published or otherwise makes available an annual listing of projects for which federal funds have been obligated in the preceding year. These projects are summarized in Appendix F and can be found on the FDOT website as follows: [www.fdot.gov/workprogram/Federal/fa-MPO-ObligDet.shtm](http://www.fdot.gov/workprogram/Federal/fa-MPO-ObligDet.shtm)

## FDOT/MPO Certification

The Hernando/Citrus MPO participated in an annual joint certification process with FDOT District 7 which concluded on February 29, 2024. The MPO was found in compliance with federal and state guidelines for metropolitan transportation planning. The Hernando/Citrus MPO continues regular meetings with its partner agencies and with neighboring MPOs and TPOs that share similar demographics and those in District 7 for regional coordination.

## Congestion Management

Congestion management is the application of strategies to improve transportation system performance and reliability by reducing the adverse impacts of congestion on the movement of people and goods. The Congestion Management Process (CMP) is an effective management process that provides for new and existing facilities using travel demand reduction and operational management strategies per Florida Statutes, Chapter 399.175(6)(c)(1).

Although the Hernando/Citrus MPO is not in a Transportation Management Area (TMA), both counties have developed and implemented congestion management processes to provide the information needed to make informed decisions regarding the proper allocation of transportation resources as required per 23 CFR 460.332(c).

## Local Capital Improvement Programs (CIP)

Appendix G reflects the 5-year schedule of Capital Improvement Projects (CIP) for the local government agencies. Local government agencies providing their CIPs include Citrus County, Hernando County, the City of Brooksville, and the City of Inverness. These projects are consistent with the local government Comprehensive Plans and the 2045 Long-Range Transportation Plan.

## 5-Year Schedule of Capital Needs for Transit Systems

The 5-Year Schedule of Capital Needs for Transit Systems are provided by Citrus County and Hernando County in Appendix H in conformance with estimates of available Federal and State funds to develop the financial plan (Chapter 339.175(8), F.S.) and (23 CFR 450.326(a)).

## Transportation Disadvantaged Services

As the Designated Official Planning Agency (DOPA) for the Transportation Disadvantaged Program in Hernando County and Citrus County, the MPO Board provides support for each Local Coordinating Board (LCB). Both LCBs are comprised of representatives of social service agencies, transportation providers, FDOT, and citizen representatives.

Transportation Disadvantaged Services are provided by the Community Transportation Coordinator (CTC). Mid Florida Community Services DBA Trans Hernando is the CTC for Hernando County, and the Citrus County Board of County Commissioners is the CTC for Citrus County.

The Transportation Disadvantaged Service Plan (TDSP) is developed by the Community Transportation Coordinator (CTC) and the DOPA under the guidance of the Commission for the Transportation Disadvantaged and coordination of the Local Coordinating Board. The plan is updated annually for development, service, and quality assurance. Through the Local Coordinating Board's involvement in the review and approval of the Transportation Disadvantaged Service Plan (TDSP), the Local Coordinating Board can guide and support the CTC in implementing coordination efforts and locally developed service standards that are consistent with the needs and resources of the community. The Capital Improvement Program (CIP) for the Transportation Disadvantaged Programs are in Appendix I.

Tampa, FL 33612

JARED PERDUE, P.E.  
SECRETARY

July 8, 2024

Bob Esposito  
Executive Director  
Hernando-Citrus MPO  
1661 Blaise Drive  
Brooksville, FL 34601

Dear Mr. Esposito,

The purpose of this letter is to request the MPO's approval of the Annual Roll-Forward Amendment to the adopted Transportation Improvement Program (TIP) for Fiscal Year (FY) 2025 through 2029 to reconcile differences between the TIP and the Department's Adopted Five-Year Work Program. This is a routine, annual process to assist Hernando-Citrus MPO in identifying projects that were not committed in the previous fiscal year (FY 2024) and have automatically rolled into FY 2025 of the FDOT Work Program. This amendment ensures that year one of the TIP, adopted by the Board on June 6, 2024, effective October 1, 2024, matches year one of the FDOT Work Program.

The affected projects submitted for the MPO's approval are listed in the attached Roll Forward Report.

Please acknowledge the MPO's approval of this Roll-Forward Amendment to your current TIP by having this letter signed and returned for further processing. The Department appreciates your expeditious handling of this request. If you have any questions, please feel free to contact me at (813) 975-6436.

Sincerely,

# Purpose

## Purpose

The document is consistent with the Transportation Performance Measures (TPM) Consensus Planning Document developed jointly by the Florida Department of Transportation (FDOT) and the Metropolitan Planning Organization Advisory Council (MPOAC). The Consensus Planning Document outlines the minimum roles of FDOT, the MPOs, and the public transportation providers in the MPO planning areas to ensure consistency to the maximum extent practicable in satisfying the federal transportation performance management requirements.

The document is organized as follows:

- Section 1 provides a brief background on transportation performance management;
- Section 2 covers the Highway Safety measures (PM1);
- Section 3 covers the Bridge and Pavement Condition measures (PM2);
- Section 4 covers System Performance and Freight Movement measures (PM3);
- Section 5 covers Transit Asset Management (TAM) measures; and
- Section 6 covers Transit Safety measures.

# Section 1

## Background

## 1.0 Background

Transportation Performance Management (TPM) is a strategic approach to connect transportation investment and policy decisions to help achieve performance goals. Performance measures are quantitative expressions used to evaluate progress toward goals. Performance targets are quantifiable levels of performance to be achieved within a time period. Federal transportation law requires state departments of transportation (DOT), MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by the U.S. Congress:

- Improving safety;
- Maintaining infrastructure condition;
- Reducing traffic congestion;
- Improving the efficiency of the system and freight movement;
- Protecting the environment; and
- Reducing delays in project delivery.

Federal law requires FDOT, the MPOs, and public transportation providers to coordinate when selecting performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe the processes through which these agencies will cooperatively develop and share information related to transportation performance management and target setting.

## Section 2

# Highway Safety Measures (PM1)

## 2.0 Highway Safety Measures (PM1)

The first of FHWA's performance management rules establishes measures to assess fatalities and serious injuries on all public roads. The rule requires state DOTs and MPOs to annually establish targets and report performance and progress toward targets to FHWA for the following safety-related performance measures:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

### 2.1 Highway Safety Targets

#### 2.1.1 Statewide Targets

Safety performance measure targets are required to be adopted on an annual basis. In August of each calendar year, FDOT reports targets to FHWA for the following calendar year. On August 31, 2023, FDOT established statewide safety performance targets for calendar year 2024. Table 2.1 presents FDOT's statewide targets.

**Table 2.1    Statewide Highway Safety Performance Targets**

Performance Measure	Calendar Year 2024 Statewide Target
Number of fatalities	0
Rate of fatalities per 100 million vehicle miles traveled (VMT)	0
Number of serious injuries	0
Rate of serious injuries per 100 million vehicle miles traveled (VMT)	0
Number of non-motorized fatalities and serious injuries	0

FDOT adopted a vision of zero traffic-related fatalities in 2012. This, in effect, became FDOT's target for zero traffic fatalities and quantified the policy set by Florida's Legislature more than 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

*“The mission of the Department of Transportation shall be to provide a safe statewide transportation system...”*

FDOT and Florida's traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by FHWA, the death or serious injury of any person is unacceptable. [The Florida Transportation Plan](#) (FTP), the state's long-range transportation plan, identifies eliminating transportation-related fatalities and serious injuries as the state's highest transportation priority. Therefore, FDOT established 0 as the only acceptable target for all five federal safety performance measures.

## 2.1.2 MPO Safety Targets

MPOs are required to establish safety targets annually within 180 days of when FDOT established targets. MPOs establish targets by either agreeing to program projects that will support the statewide targets or establish their own quantitative targets for the MPO planning area.

The Hernando/Citrus MPO acknowledges FDOT statewide 2024 safety targets, which are set at "0" for each performance measure to reflect FDOT's goal of zero deaths. However, the MPO established safety performance targets specific to the MPO planning area. On February 1, 2024, the Hernando/Citrus MPO established the calendar year 2024 safety targets listed in Table 2.2.

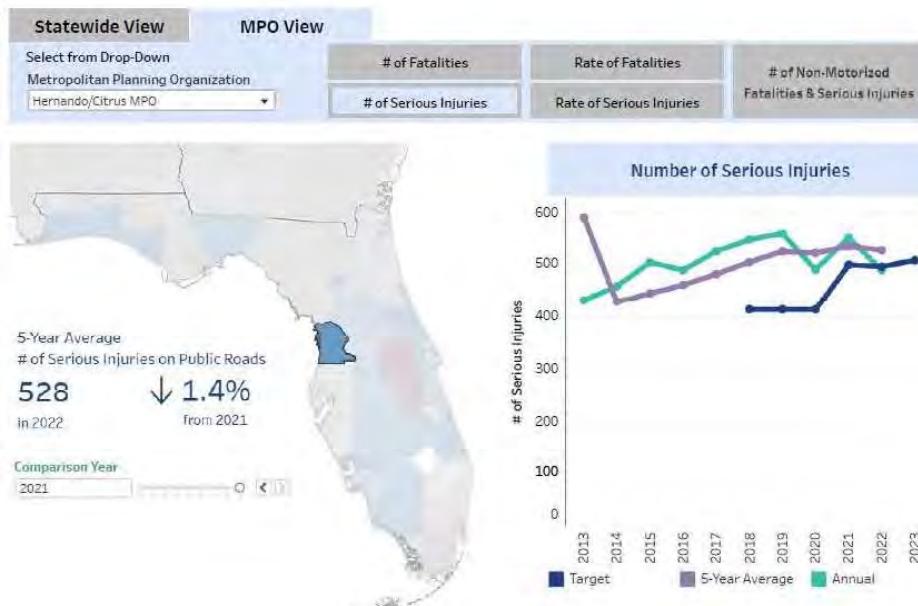

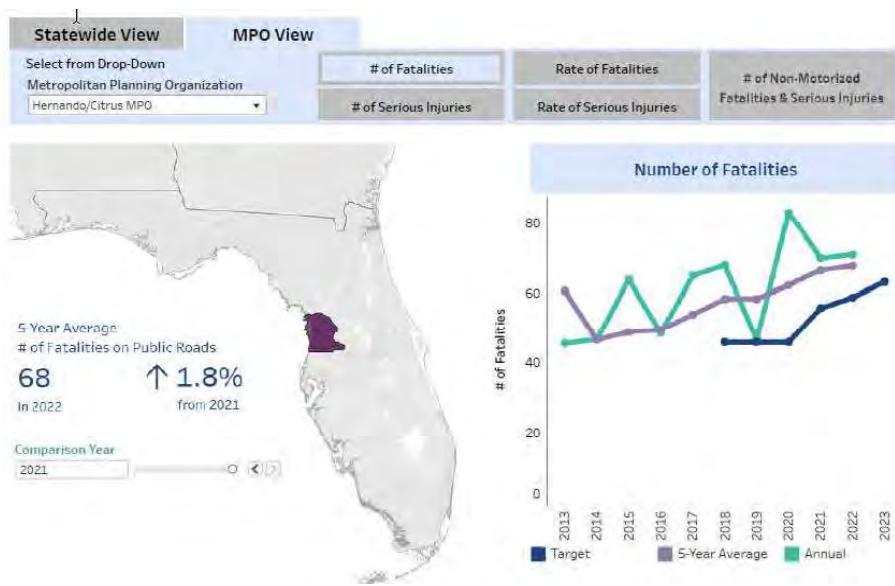

**Table 2.2 MPO Safety Performance Targets**

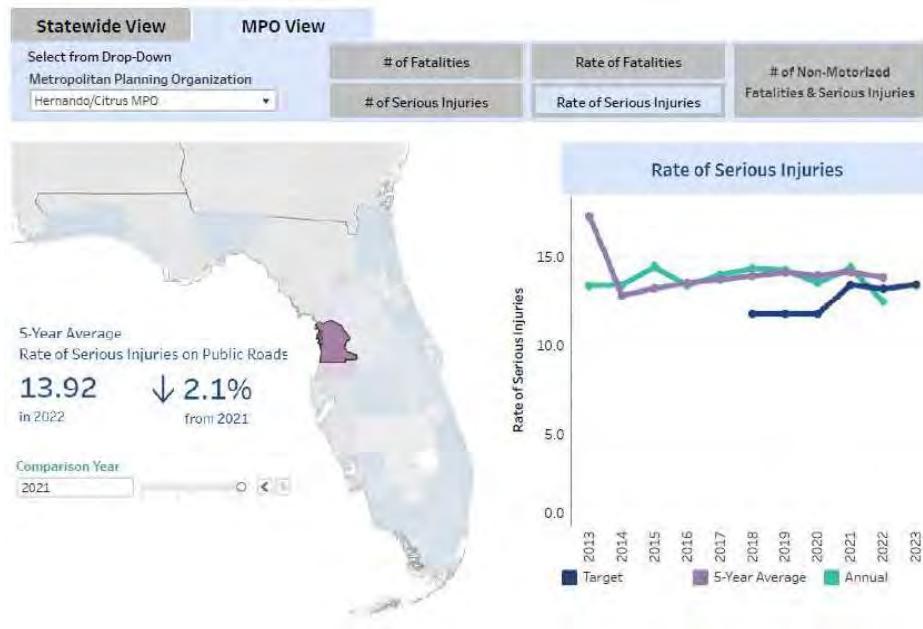

Performance Measure	Calendar Year 2024 MPO Target
Number of fatalities	59.9
Rate of fatalities per 100 million vehicle miles traveled (VMT)	1.6
Number of serious Injuries	497.4
Rate of serious injuries per 100 million vehicle miles traveled (VMT)	13.4
Number of non-motorized fatalities and serious injuries	44.5

While the Hernando/Citrus Metropolitan Planning Organization supports FDOT's long-term "Vision Zero" target for eliminating traffic related fatalities and serious injuries, and bicycle/pedestrian fatalities and serious injuries in the State of Florida, the MPO has established annual targets of a five percent reduction per year which is based upon a five-year rolling average. Obtaining a result of "0" in these categories given the performance statistics of the planning area, the increased volumes of traffic being generated, and the focus on safety, it was determined in past years that a 5% reduction on the average was appropriate and measurable.

## 2.2 Safety Trends in the MPO Area

The Hernando/Citrus MPO reviewed the trends and the safety statistics and provided snapshots below from the Florida Department of Transportation's Safety Dashboard, *Signal 4 Analytics*, to support the TIP's focus on safety and performance on its roadways. Based on 2022 data, the number of fatalities increased by 1.8% to 68, the number of serious fatalities was reduced to 528 or by 1.4%, and the rate of serious injuries reduced by 2.1% or 13.92.

## 2.3 FDOT Safety Planning and Programming

### 2.3.1 Florida's Strategic Highway Safety Plan

[Florida's Strategic Highway Safety Plan](#) (SHSP), published in March 2021, identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida's 27 MPOs and the MPOAC, as well as other statewide traffic safety partners. The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida's transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education, enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshaping transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which are referred to as the 4Is: information intelligence, innovation, insight into communities, and investments and policies. The SHSP also embraces an integrated "Safe System" approach that involves designing and managing road infrastructure to keep the risk of a mistake low and to ensure that when a mistake leads to a crash, the impact on the human body does not result in a fatality or serious injury. The five Safe System elements together create a holistic approach with layers of protection: safer road users, safer vehicles, safer speeds, safer roads, and post-crash care.

The SHSP also expands the list of emphasis areas for Florida's safety programs to include six evolving emphasis areas, which are high-risk or high-impact crashes that are a subset of an existing emphasis area or emerging risks and new innovations, where safety implications are unknown. These evolving emphasis areas include work zones, drowsy and ill driving, rail grade crossings, roadway transit, micro mobility, and connected and automated vehicles.

## 2.3.2 Florida's Highway Safety Improvement Program

While the FTP and the SHSP both highlight the statewide commitment to a vision of zero deaths, the Florida Highway Safety Improvement Program (HSIP) Annual Report documents statewide performance and progress toward that vision. It also lists all HSIP projects that were obligated during the reporting year and the relationship of each project to the SHSP.

As discussed above, in the 2023 HSIP Annual Report, FDOT reported calendar year 2024 statewide safety performance targets at "0" for each safety performance measure to reflect the vision of zero deaths. Annually, FHWA determines whether Florida has met the targets or performed better than the baseline for at least four of the five measures. If this does not occur FDOT must submit an annual implementation plan with actions, it will take to meet targets in the future.

On April 20, 2023, FHWA reported the results of its 2021 safety target assessment. FHWA concluded that Florida had not met or made significant progress toward its 2021 safety targets, noting that zero had not been achieved for any measure and that only three out of five measures (number of serious injuries, serious injury rate, and number of non-motorized fatalities and serious injuries) were better than the baseline. Subsequently, FDOT developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of the safety targets. [The HSIP Implementation Plan](#) was submitted with the HSIP Annual Report to FHWA on August 31, 2023.

Consistent with FHWA requirements, the HSIP Implementation Plan focuses specifically on implementation of the HSIP as a core federal-aid highway program and documents the continued enhancements planned for Florida's HSIP to better leverage the benefits of this program. However, recognizing that FDOT already allocates all HSIP funding to safety programs - and building on the integrated approach that underscores FDOT's safety programs – the HSIP Implementation Plan also documents how additional FDOT, and partner activities may contribute to progress toward zero. Building on the foundation of prior HSIP Implementation Plans, the 2023 HSIP Implementation Plan identifies the following key commitments:

- Improve partner coordination and align safety activities.
- Maximize HSIP infrastructure investments.
- Enhance safety data systems and analysis.
- Implement key safety countermeasures.
- Focus on safety marketing and education on target audiences.
- Capitalize on new and existing funding opportunities.

Florida conducts extensive safety data analysis to understand the state's traffic safety challenges and identify and implement successful safety solutions. Florida's transportation system is evaluated using location-specific analyses that evaluate locations where the number of crashes or crash rates are the highest and where fatalities and serious injuries are most prominent. These analyses are paired with additional systemic analyses to identify characteristics that contribute to certain crash types and prioritize countermeasures that can be deployed across the system as a whole. As countermeasures are implemented, Florida also employs predictive analyses to evaluate the performance of roadways (i.e., evaluating results of implemented crash modification factors against projected crash reduction factors).

FDOT's State Safety Office works closely with FDOT Districts and regional and local traffic safety partners to develop the annual HSIP updates. Historic, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida's SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards

may take years to be implemented, they are built on proven countermeasures for improving safety and addressing serious crash risks or safety problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. [FDOT's HSIP Guidelines](#) provide detailed information on this data-driven process and funding eligibility.

Florida received an allocation of approximately \$156 million in HSIP funds for use during the 2023 state fiscal year from July 1, 2022 through June 30, 2023, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete projects that address intersections, lane departure, pedestrian and bicyclist safety, and other programs representing the remaining SHSP emphasis areas. This year's HSIP allocated \$128.7 million in infrastructure investments on state-maintained roadways and \$27.5 million in infrastructure investments on local roadways. A list of HSIP projects can be found in the [HSIP 2023 Annual Report](#).

Beginning in fiscal year 2024, HSIP funding is distributed among FDOT Districts based on statutory formula to allow the Districts to have more clearly defined funding levels for which they can better plan to select and fund projects. MPOs and local agencies coordinate with FDOT Districts to identify and implement effective highway safety improvement projects on non-state roadways.

### 2.3.3 Additional FDOT Safety Planning Activities

In addition to HSIP, safety is considered as a factor in FDOT planning and priority setting for projects in preservation and capacity programs. Data is analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The [Florida PD&E Manual](#) requires the consideration of safety when preparing a proposed project's purpose and need as part of the analysis of alternatives. Florida design and construction standards include safety criteria and countermeasures, which are incorporated in every construction project. FDOT also recognizes the importance of the American Association of State Highway Transportation Official (AASHTO) Highway Safety Manual (HSM). Through dedicated and consistent training and messaging over the last several years, the HSM is now an integral part of project development and design.

FDOT holds Program Planning Workshops annually to determine the level of funding to be allocated over the next 5 to 10 years to preserve and provide for a safe transportation system. Certain funding types are further analyzed and prioritized by FDOT Central Offices, after projects are prioritized collaboratively by the MPOs, local governments, and FDOT Districts; for example, the Safety Office is responsible for the HSIP and Highway Safety Program (HSP) and the Systems Implementation Office is responsible for the Strategic Intermodal System (SIS). Both the Safety and SIS programs consider the reduction of traffic fatalities and serious injuries in their criteria for ranking projects.

## 2.4 Safety Investments in the TIP

The Hernando/Citrus MPO's Transportation Improvement Program for FY2025-FY2029 (TIP) addresses its safety investments in the road capacity projects reflected for both Hernando and Citrus Counties. Improvements and enhancements in the roadways help to alleviate lane changing and passing-zone efforts by the public by adding additional lanes, reduced speeding as traffic flow improves, and promotion of safe and alternative roadway use by bicycles and pedestrians via implementation of safe streets concepts. The MPO participates in the Community Traffic Safety Team (CTST) local forum and the Safe Routes to School processes. These reoccurring meetings bring the local community together to solve issues. The List of Priority Projects (LOPP) in Appendix C provides support to the TIP in addressing priorities to assist with congestion management.

The TIP includes projects that fall into specific investment priorities established by the MPO in the LRTP. This includes safety programs such as:

## Highway Safety Measures (PM1)

---

Project 450972-1, 2, and 3 Citrus County sidewalk improvements

Project 452924-1 US98/US 41/SR 700/SR 50A Intersection Improvement

Project 450971-1, 2, and 3 Hernando County sidewalk improvements

All resurfacing projects in the program serve as investments for safety as the road surface is important to all travelers and modes of travel.

Because safety is inherent in so many FDOT and Hernando/Citrus MPO programs and projects, and because of the broad and holistic approach FDOT is undertaking with its commitment to Vision Zero, the program of projects in this TIP is anticipated to support progress towards achieving the safety targets.

## Section 3

# Pavement & Bridge Condition Measures (PM2)

## 3.0 Pavement & Bridge Condition Measures (PM2)

FHWA's Bridge & Pavement Condition Performance Measures Final Rule, which is also referred to as the PM2 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

1. Percent of NHS bridges (by deck area) classified as in good condition;
2. Percent of NHS bridges (by deck area) classified as in poor condition;
3. Percent of Interstate pavements in good condition;
4. Percent of Interstate pavements in poor condition;
5. Percent of non-Interstate National Highway System (NHS) pavements in good condition; and
6. Percent of non-Interstate NHS pavements in poor condition.

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) – an indicator of roughness (applicable to asphalt, jointed concrete, and continuously reinforced concrete pavements);
- Cracking percent – percentage of pavement surface exhibiting cracking (applicable to asphalt, jointed concrete, and continuously reinforced concrete pavements);
- Rutting - extent of surface depressions (applicable to asphalt pavements only);
- Faulting - vertical misalignment of pavement joints (applicable to jointed concrete pavements only); and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

### 3.1 Bridge & Pavement Condition Targets

#### 3.1.1 Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for bridge and pavement condition measures. On December 16, 2022, FDOT established statewide bridge and pavement targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets. The two-year targets represent bridge and pavement condition at the end of calendar year 2023, while the four-year targets represent condition at the end of 2025. Table 3.1 presents the statewide targets.

**Table 3.1 Statewide Bridge and Pavement Condition Performance Targets**

Performance Measure	2022 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
Percent of NHS bridges (by deck area) in good condition	58.2%	≥50.0%	≥50.0%
Percent of NHS bridges (by deck area) in poor condition	0.6%	≤10.0%	≤10.0%
Percent of Interstate pavements in good condition	73.4%	≥60.0%	≥60.0%
Percent of Interstate pavements in poor condition	0.2%	≤5.0%	≤5.0%
Percent of non-Interstate pavements in good condition	48.8%	≥40.0%	≥40.0%
Percent of non-Interstate pavements in poor condition	0.6%	≤5.0%	≤5.0%

Source: 2022 Statewide Conditions [fdotsourcebook.com](http://fdotsourcebook.com).

In determining its approach to establishing performance targets for the federal bridge and pavement condition performance measures, FDOT considered many factors. FDOT is mandated by Florida Statute 334.046 to preserve the state's bridges and pavement to specific state-defined standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity improvements. These state statutory guidelines envelope the statewide federal targets that have been established for bridges and pavements.

In addition, FDOT developed a [Transportation Asset Management Plan](#) (TAMP) for the state NHS bridge and pavement assets. The TAMP must include investment strategies leading to a program of projects that would make progress toward achievement of the State's targets for asset condition and performance of the NHS. FDOT's current TAMP was submitted on December 30, 2022 and recertified by FHWA on February 23, 2023.

Further, the federal pavement condition measures require a data collection methodology that is a departure from the methods historically used by FDOT. For bridge condition, performance is measured in deck area under the federal measure, while FDOT programs its bridge repair or replacement work on a bridge-by-bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT.

FDOT collects and reports bridge and pavement data to FHWA each year to track performance and progress toward the targets. The percentage of Florida's bridges in good condition is slowly decreasing, which is to be expected as the bridge inventory grows older. Reported bridge and pavement data through 2022 exceeded the established targets. Based on analyses of the data, the previous statewide targets are still appropriate for 2023 and 2025.

FHWA determined that FDOT made significant progress toward its 2021 PM2 targets; FHWA's assessment of progress toward the 2023 targets is anticipated to be provided in 2024.

### 3.1.2 MPO Targets

MPOs must set four-year targets for the six bridge and pavement condition measures within 180 days of when FDOT established targets. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On April 6, 2023, the Hernando/Citrus MPO agreed to support FDOT's statewide bridge and pavement performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets as reflected.

## 3.2 Bridge & Pavement Investments in the TIP

The Hernando/Citrus MPO's TIP reflects investment priorities established in the 2045 Long-Range Transportation Plan (LRTP). The focus of Hernando/Citrus MPO's investments in bridge and pavement condition include programs and strategies or major projects funded in the TIP that address system preservation/maintenance on the Interstate and non-Interstate NHS in the MPO area, such as those in the following categories:

- System resiliency projects that improve NHS bridge components (e.g., upgrading culverts)]
- Pavement replacement or reconstruction (on the NHS)
  - US 41 (SR 45) segments include Project IDs 257165-1, 4, 5, 6 (adding lanes and reconstruction to include: bike lanes, sidewalks)
- New NHS lanes or widenings, including resurfacing existing lanes associated with new capacity
  - US 41 (SR 45) segments include Project ID 450545-1 (replacing asphalt with concrete at 6-lane intersections)
  - US 98/SR 700 Project ID 436733-1 (resurfacing)
  - US 98/SR 50A, Project ID 151056-1 (resurfacing)
  - US 301 (from Pasco County Line to SR 50) Project ID 445536-3 (adding two lanes and reconstruction)
  - US 41/SR 45 from south of County Line Road to South of Powell Road, Project ID447935-1 (resurfacing 4 lanes)
  - US 41/SR45 Project ID 449157-1 (resurfacing)
  - SR 50 from Mondon Hill Road to S of Jasmine, Project ID447948-1 (resurfacing)
  - SR 50 (Cortez to Wiscon to Cobb Road), Project ID 451046-1 (resurfacing)

The TIP will fund \$96,584,026 for resurfacing, and \$124,041,456 for new capacity.

The projects included in the TIP are consistent with FDOT's Five Year Work Program. Therefore, they reflect FDOT's approach of prioritizing funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

# Section 4

## System Performance, Freight and Congestion Mitigation & Air Quality Improvement Program Measures PM3)

## 4.0 System Performance, Freight, & Congestion Mitigation & Air Quality Improvement Program Measures (PM3)

FHWA's System Performance/Freight/CMAQ Performance Measures Final Rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

### **National Highway Performance Program (NHPP)**

1. Percent of person-miles traveled on the Interstate system that are reliable;
2. Percent of person-miles traveled on the non-Interstate NHS that are reliable;

### **National Highway Freight Program (NHFP)**

3. Truck Travel Time Reliability index (TTTR);

### **Congestion Mitigation and Air Quality Improvement Program (CMAQ)**

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NOx, VOC, CO, PM10, and PM2.5) for CMAQ funded projects.

Because all areas in Florida meet current national air quality standards, the three CMAQ measures do not apply in Florida. A description of the first three measures is below.

The first two performance measures assess the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. Reliability is defined as the ratio of longer travel times to a normal travel time over all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day.

The third performance measure assesses the reliability of truck travel on the Interstate system. The TTTR assesses how reliable the Interstate network is by comparing the worst travel times for trucks against the travel time they typically experience.

## 4.1 System Performance and Freight Targets

### 4.1.1 Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the system performance and freight targets. On December 16, 2022, FDOT established statewide performance targets for the second performance period ending in 2025. The 2-year and 4-year targets set for this performance period are identical to the 2-year and 4-year targets set for the previous performance period. Florida's performance through 2021 exceeds the targets. The two-year targets represent performance at the end of calendar year 2023, while the four-year targets represent performance at the end of 2025. Table 4.1 presents the statewide targets.

**Table 4.1 Statewide System Performance and Freight Targets**

Performance Measure	2022 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
Percent of person-miles traveled on the Interstate system that are reliable	85.7%	≥75.0%	≥70.0%
Percent of person-miles traveled on the non-Interstate NHS that are reliable	92.1%	≥50.0%	≥50.0%
Truck travel time reliability (Interstate)	1.46	1.75	2.00

Source: 2022 Statewide Conditions [fdotsourcebook.com](http://fdotsourcebook.com).

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. Actual performance in 2021 was better than the 2021 targets. FHWA's assessment of progress toward the 2023 targets is anticipated to be released in March 2024.

System performance and freight are addressed through several statewide initiatives:

- Florida's Strategic Intermodal System (SIS) is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT's capacity investments and is Florida's primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida's transportation system and account for a dominant share of the people and freight movement to, from and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT's focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA's TPM program. The [SIS Policy Plan](#) was updated in early 2022 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investment needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT's Strategic Investment Tool (SIT).
- In addition, [FDOT's Freight Mobility and Trade Plan](#) (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In May 2020, FHWA approved the FMTP as FDOT's State Freight Plan. An update to the FMTP will be adopted in the spring of 2024.

#### 4.1.2 MPO Targets

MPOs must establish four-year targets for all three performance measures. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On April 6, 2023, the Hernando/Citrus MPO agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

## 4.2 System Performance and Freight Investments in the TIP

The Hernando/Citrus MPO's TIP reflects investment priorities established in the 2045 Long-Range Transportation Plan (LRTP). The focus of Hernando Citrus MPO's investments that address system performance and freight include:

- Corridor improvements
- Intersection improvements (on NHS roads)
  - US 98/US41/SR 700/SR 50A Intersection Improvement (Project ID 452924-1)
- Projects evaluated in the Congestion Management Plan (CMP) and selected for the TIP
  - Suncoast Parkway (SR 589) New Road Construction Project ID 442764-2, 3
- Investments in transit, bicycle, or pedestrian systems that promote mode shift
  - Sidewalk projects that may be an attractive alternative to the use of vehicles such as:
    - Project #441105-1 (Forest Ridge Blvd from W Lake Beverly Dr to W Colbert Ct)
    - A cure in gaps as proposed in Project #s 450972-1, 2, and 3 (Citrus County) and Project #s 450971-1, 2, and 3
- Managed lanes
- Freight improvements (Interstate) that increase reliability (could include improved weigh stations, addressing identified truck bottlenecks on the Interstate, etc.).
  - TSMO/ITS projects or programs
    - US 19/SR 55 from Pasco County Line to Citrus County Line (Arterial Traffic Management (Project ID 441935-1) Adding Cameras, Travel Time Readers, Fiber, Detectors, Signal Controller Upgrades
    - US 19/SR 55 from Pasco County Line to Citrus County Line (Arterial Traffic Management (Project ID 441935-1) Adding Cameras, Travel Time Readers, Fiber, Detectors, Signal Controller Upgrades
- Travel demand management programs, park, and ride lots, etc.]

The TIP (FY 2025-FY 2029) reflects funding in the amount of \$13,079,764 for intersection improvements/arterial traffic management, \$124,041,456 million for congestion relief projects, \$96,584,026 for resurfacing, and \$6,002,065 million for sidewalk projects.

The projects included in the TIP are consistent with FDOT's Five Year Work Program. Therefore, they reflect FDOT's approach of prioritizing funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

## Section 5

# Transit Asset Management Measures

## 5.0 Transit Asset Management Measures

### 5.1 Transit Asset Performance Measures

FTA's Transit Asset Management (TAM) regulations apply to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The regulations define the term "state of good repair," require that public transportation providers develop and implement TAM plans, and established state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. Table 5.1 identifies the TAM performance measures.

**Table 5.1 FTA TAM Performance Measures**

Asset Category	Performance Measure
Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their Useful Life Benchmark
Infrastructure	Percentage of track segments with performance restrictions
Facilities	Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, useful life benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider's operating environment. ULB considers a provider's unique operating environment such as geography, service frequency, etc.

Public transportation providers are required to establish and report TAM targets annually for the following fiscal year. Each public transportation provider or its sponsors must share its targets with each MPO in which the public transportation provider's projects and services are programmed in the MPO's TIP. MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the most current transit provider targets in the TIP if they have not yet taken action to update MPO targets). When establishing TAM targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area. To the maximum extent practicable, public transit providers, states, and MPOs must coordinate with each other in the selection of performance targets.

The TAM regulation defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service, or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes or have 100 or less vehicles in one non-fixed route mode. A Tier I provider must establish its own TAM targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a Group Plan with other Tier II providers whereby targets are established for the entire group in coordination with a group plan sponsor, typically a state DOT.

Tier I	Tier II
Operates rail service OR	Subrecipient of FTA 5311 funds OR

$\geq 101$ vehicles across all fixed route modes <b>OR</b> $\geq 101$ vehicles in one non-fixed route mode	American Indian Tribe <b>OR</b> $\leq 100$ vehicles across all fixed route modes <b>OR</b> $\leq 100$ vehicles in one non-fixed route mode
--	--

## 5.2 FDOT Group TAM Plan Participants

A total of 19 public transportation providers participated in the [FDOT Group TAM Plan](#) and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD) (Table 6.2). These are FDOT's Section 5311 Rural Program subrecipients. The Group TAM Plan was adopted in September 2022 and covers fiscal years 2022-2023 through 2025-2026. Group TAM Plan targets for fiscal year 2023 were submitted to NTD in September 2023. An *MPO has the option of including the full table below for context, or just identifying those Tier II providers in the MPO planning area that participated in the Group TAM Plan, if any. If the MPO area includes any providers participating in the Group TAM Plan, the MPO should check with FDOT before submitting the TIP to confirm the final 2023 targets.*

**Table 5.2 Florida Group TAM Plan Participants**

District	Participating Transit Providers
1	Central Florida Regional Planning Council Hendry County
2	Baker County Council on Aging Levy County Transit Nassau County Council on Aging/Nassau TRANSIT Ride Solution (Putnam County) Suwannee River Economic Council Suwannee Valley Transit Authority
3	Big Bend Transit Calhoun County Senior Citizens Association Gulf County ARC JTRANS Liberty County Transit Tri-County Community Council Wakulla Transportation
4	<i>No participating providers</i>
5	Flagler County Public Transportation Marion Transit Sumter County Transit
6	Key West Transit
7	<i>No participating providers</i>

## 5.3 Transit Asset Management Targets

The following providers operate in the MPO planning area: Citrus County Transit (Citrus County Board of County Commissioners) and THEBus (Hernando County Board of County Commissioners).

### 5.3.1 Transit Agency Targets

The Citrus County Board of County Commissioners and the Hernando County Board of County Commissioners established TAM targets for each of the applicable asset categories in 2022. Table 6.3 presents the targets.

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. The table summarizes both existing conditions for the most recent year available, and the current targets.

**Table 5.3 Transit Asset Management Targets for Citrus County Board of County Commissioners and the Hernando County Board of County Commissioners**

Citrus County			
Asset Category - Performance Measure	Asset Class	FY 2024 Asset Condition	FY 2025 Target
<b>Rolling Stock</b>			
Age - % of revenue vehicles within a particular asset class that have met or exceeded their ULB	Cutaway Bus	Fair	20%
<b>Equipment</b>			
Age - % of non-revenue vehicles within a particular asset class that have met or exceeded their ULB	Generator	Good	0%
<b>Facilities</b>			
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Administration	Good	0%

Hernando County			
Asset Category - Performance Measure	Asset Class	FY 2024 Asset Condition	FY 2025 Target
<b>Rolling Stock</b>			
Age - % of revenue vehicles within a particular asset class that have met or exceeded their ULB	Bus	Fair	15%
	Cutaway Bus	Fair	20%
	Minivan	Fair	0%
<b>Equipment</b>			
Age - % of non-revenue vehicles within a particular asset class that have met or exceeded their ULB	Generator	Good	0%
<b>Facilities</b>			
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Maintenance	Good	0%

### 5.3.2 MPO Transit Asset Management Targets

As discussed above, MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On June 6, 2024, the Hernando/Citrus MPO agreed to support the Citrus County and Hernando County TAM targets, through the adoption of the last Transportation Improvement Program, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider's targets.

## 5.4 Transit Asset Management Investments in the TIP

The Hernando/Citrus MPO's TIP was developed and is managed in cooperation with Citrus County Board of County Commissioners, the Hernando County Board of County Commissioners, and the Community Transportation Coordinators, Citrus County Board of County Commissioners, and Mid Florida Community Services doing business as Trans-Hernando, respectively. It reflects the investment priorities established in the Hernando/Citrus MPO and the 2045 Long-Range Transportation Plan.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the condition of the region's transit assets. The anticipated effect of the TIP toward achieving the targets is reflected in the funding outlay shown in Appendix H (Transit Needs) and Appendix I (Transportation Disadvantaged Needs). Citrus County investments for the Five-Year Program reflect \$4,083,020 for 18 buses that are equipped for Americans with Disabilities. Hernando County's capital program reflects \$41,673,203 in projects encompassing the replacement of vehicles (fixed-route and paratransit), bus stop improvements for Americans with Disabilities, transit shelters and amenities, and a transfer facility, a major capital investment. A combination of local funds and federal/state grant funds allow for the systems to keep vehicles in a state of good repair and offer shelters, amenities and sidewalks that are safe and accessible by all riders. As previously indicated, identified in the program are:

- Bus and other vehicle purchases and replacements
- Equipment purchases and replacements including transit shelters and amenities,
- Bus stop improvements
- Transfer Facility (Hernando County)

Transit asset condition and state of good repair is a consideration in the methodology that the Hernando/Citrus MPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO's planning area. This prioritization process considers factors such as methodology utilized in the Transit Asset Management process involving age and vehicle mileage.

The Hernando/Citrus MPO's TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the TAM performance targets. The Hernando/Citrus MPO will continue to coordinate with the Citrus County Board of County Commissioners, the Hernando County Board of County Commissioners and the Community Transportation Coordinators to maintain the region's transit assets in a state of good repair.

For more information on these programs and projects, see Appendix H and Appendix I.

# Section 6

## Transit Safety Performance

## 6.0 Transit Safety Performance

FTA's Public Transportation Agency Safety Plan (PTASP) regulations established transit safety performance management requirements for providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53.

The regulations apply to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the [National Public Transportation Safety Plan](#), which was published on January 28, 2017. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.
- System reliability – mean distance between major mechanical failures by mode.

In Florida, each Section 5307 or 5311 public transportation provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida's transit agencies revise their existing SSPPs to be compliant with the FTA PTASP requirements.<sup>1</sup>

Each public transportation provider that is subject to the PTASP regulations must certify that its SSPP meets the requirements for a PTASP, including transit safety targets for the federally required measures. Providers were required to certify their initial PTASP and safety targets by July 20, 2021. Once the public transportation provider establishes safety targets it must make the targets available to MPOs to aid in the planning process. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the current transit provider targets in their TIPs).

When establishing transit safety targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional transit safety targets for the MPO planning area. In addition, the Hernando/Citrus MPO must reflect those targets in LRTP and TIP updates.

---

<sup>1</sup> FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at [ptasp-14-90-guidance-document\\_09112019.docx\\_\(live.com\)](https://www.floridajobs.org/ptasp-14-90-guidance-document_09112019.docx_(live.com))

## 6.1 Transit Safety Targets

The following public transportation provider(s) operate in the Hernando/Citrus MPO planning area: Citrus County Transit (Citrus County Board of County Commissioners), THEBus (Hernando County Board of County Commissioners), and Mid Florida Community Services doing business as Trans-Hernando. Of these, Citrus County Board of County Commissioners and the Hernando County Board of County Commissioners are responsible for developing a PTASP and establishing transit safety performance targets annually.

### 6.1.1 Transit Agency Safety Targets

The Citrus County Board of County Commissioners established the transit safety targets identified in Table 7.1 as adopted on September 8, 2020 (as revised on 7/12/2022), and the Hernando County Board of County Commissioners established the transit safety targets identified in Table 7.1 as approved in May of 2022.

**Table 6.1 Transit Safety Performance Targets for Citrus County Board of County Commissioners and the Hernando County Board of County Commissioners**

Transit Mode	Fatalities (total)	Fatalities (rate)	Injuries (total)	Injuries (rate)	Safety Events (total)	Safety Events (rate)	System Reliability
<b>Citrus County Board of County Commissioners</b>							
Deviated Fixed Route Bus	0	0	3	.27 (per 100,000 VRM)	5	.45 (per 100,000 VRM)	1.41 (per 100,000 VRM Failures)
ADA/PARA-TRANSIT	0	0	1	.07 (Per 100,000 VRM)	10	.7 (per 100,000 VRM)	2.11 (per 100,000 VRM Failures)
<b>Hernando County Board of County Commissioners</b>							
Fixed Route Bus	0	0	1	0 (per 100,000 VRM)	1	0 (per 100,000 VRM)	1 (per 100,000 VRM Failures)
Demand Response	0	0	0	0 (per 100,000 VRM)	0	0 (per 100,000 VRM)	0 (per 100,000 VRM Failures)

## 6.1.2 MPO Transit Safety Targets

As discussed above, MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional transit safety targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On June 6, 2024, the Hernando/Citrus MPO agreed to support the transit safety targets provided by the Citrus County Board of County Commissioners and the Hernando County Board of County Commissioners, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider's targets as the targets appeared to be appropriate.

## 6.2 Transit Safety Investments in the TIP

The Hernando/Citrus MPO's TIP was developed and is managed in cooperation with the Citrus County Board of County Commissioners and the Hernando County Board of County Commissioners. It reflects the investment priorities established in the 2045 Long-Range Transportation Plan.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the safety of the region's transit systems. The focus of the Hernando/Citrus MPO's investments that address transit safety include Citrus County investments for the Five-Year Program of \$4,083,020 for 18 buses that are equipped for Americans with Disabilities. Hernando County's capital program reflects \$41,673,203 in projects encompassing the replacement of vehicles (fixed-route and paratransit), bus stop improvements for Americans with Disabilities, transit shelters and amenities, and a transfer facility, a major capital investment. A combination of local funds and federal/state grant funds allow for the systems to keep vehicles in a state of good repair and offer shelters, amenities and sidewalks that are safe and accessible by all riders.

Transit safety is a consideration in the methodology Hernando/Citrus MPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit safety, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit safety in the MPO's planning area. This prioritization process considers factors such as vehicles in a state of good repair, sidewalks that are ADA accessible, and transit shelters/amenities that offer coverage in the weather.

The Hernando/Citrus MPO's TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The Hernando/Citrus MPO will continue to coordinate with the Citrus County Board of County Commissioners and the Hernando County Board of County Commissioners to maintain and improve the safety of the region's transit system and maintain transit assets in a state of good repair.

For more information on these programs and projects, see Appendix H.

## Appendix C: List of Priority Projects (LOPP)

*Page blank for printing purposes*

## Hernando/Citrus MPO List of Priority Projects - Major Improvement & Congestion Management

MPO Board - June 6, 2024

PRIORITY	FDOT ITEM #	AGENCY	FACILITY	AREA	FROM	TO	ACTIVITY	PROJECT PHASE	YEAR	REASON FOR CHANGE
1	257165-2	FDOT	US 41 (SR 45) from E Arlington Street St to N of SR 200 (Divided into 257165-6, 257165-7, 257165-8) <i>Project is phased below in segments for funding purposes.</i>							
	257165-6	FDOT	US 41 (SR 45)	Citrus	E Arlington St	E Louisiana Lane	Add 2 lanes (existing 2)	Design 45% complete, ROW underway		
	257165-7	FDOT	US 41 (SR 45)	Citrus	E Louisiana Lane	S of CR 486	Add 2 lanes (existing 2)	Design 45% complete		
	257165-8	FDOT	US 41 (SR 45)	Citrus	CR 486	N of SR 200	Add 2 lanes (existing 2)	Design 45% complete		
2	257298	FDOT	CR 578 (County Line Road) from E of East Rd to W of Suncoast Parkway (Divided into 257298-3 and 257298-4)							
	257298 3		CR 578 (County Line Road)	Hern	East of East Rd	Springtime St	Add 2 lanes (existing 2)			
	257298 4		CR 578 (County Line Road)	Hern	East of Mariner Blvd	W of the Suncoast Parkway	Add 2 lanes (existing 2)			
3		FDOT	SR 200 (N Carl G. Rose Hwy)	Citrus	US 41	Marion County Line	Add 2 lanes (existing 2)			
4			US 41/SR 50A One Way Pairs	Hern	Mildred Avenue	May Avenue	Revert One-Way Pairs Back to Two-Way Traffic in Downtown Brooksville			
5			US 41 at Lake Lindsey Rd	Hern			Roundabout			
6		FDOT	US 41/SR 45 (Broad Street) at CR 576 (Ayers Rd)	Hern			Intersection Improvement/add a turn lane			
7		FDOT	CR 491 (N. Lecanto Hwy.)	Citrus	W. Pine Ridge Blvd.	SR 200	Add 2 lanes (existing 2)			
8		FDOT	US 41/SR 45 (Florida Avenue) at CR 491 (N Lecanto Highway)	Citrus	CR 491	Northbound US41 and Southbound US 41	Signal Improvement on Left Turn Lanes from CR491 to NB US41 & SB US41			
9		FDOT	Cardinal St	Citrus	US 19	CR 491	Add 2 lanes (existing 2)			
10		FDOT	US 41 (SR 45)	Hern	Spring Hill Dr.	Powell Rd.	Add 2 lanes (existing 4)			
11	405822 5	FDOT	US 19 (SR 55)/US 98	Citrus	Cardinal Street	Green Acres	Add 2 lanes (existing 4)

## **Appendix D: Glossary of Terms, Abbreviations, Funding Types/Codes, and Acronyms**

*Page blank for printing purposes*

**APPENDIX D**  
**GLOSSARY OF TERMS, ABBREVIATIONS, FUNDING TYPES/CODES, AND ACRONYMS**

**TIP FISCAL YEARS 2025-2029**  
**HERNANDO/CITRUS MPO**

ACCM	ADVANCE CONSTRUCTION (CM)
ACNP	ADVANCED CONSTRUCTION - Advanced Construction is used to program project phases that will eventually be reimbursed with federal funds. These are state funds used to finance projects in anticipation of future federal funds. AC funds are authorized with Federal Highway Administration (FHWA) in the same manner as regular federal funds. This will allow the Florida Department of Transportation to convert the AC funds to federal funds and then bill FHWA for accumulated costs.
ACNR	AC NAT HWY PERFORM RESURFACING
ACPR	AC - PROTECT GRANT PGM
ACSA	ADVANCED CONSTRUCTION - ANY AREA
ACSL	ADVANCED CONSTRUCTION LOCAL
ACSM	STBG AREA POP. W/ 5K TO 49,999
ACSS	ADVANCE CONSTRUCTIONS (SS, HSP PROGRAMS)
ADA	AMERICANS WITH DISABILITIES - The Americans with Disabilities Act of 1990 is a Federal law that requires public facilities (including transportation services) to be accessible to persons with disabilities including those with mental disabilities, temporary disabilities, and the conditions related to substance abuse.
ARPA	AMERICAN RESCUE PLAN ACT OF 2021 ALSO CALLED THE COVID19 STIMULUS PACKAGE
ARTW	ARTERIAL WIDENING PROGRAM
BA	DONOR BONUS, ANY AREA
BOCC	Board of County Commissioners is the chief legislative body in a County. Five county commissioners are elected to four-year terms by the voters at large and represent the geographical district in which they reside. The Board approves the budget, adopts local ordinances and resolutions, and establishes policies which govern the County and ensure the health, safety, and welfare of the citizens.
BPAC	Bicycle/Pedestrian Advisory Committee: The BPAC was established to provide a continuing forum with which to analyze and promote bicycle and pedestrian issues and Project as an integral part of a multi-modal transportation planning process. The BPAC initiates updates on the prioritization of transportation enhancement Project. The BPAC meets on a quarterly basis.
CAC	CAC - Citizens Advisory Committee: The CAC provides a formal framework for continuing public input on the Unified Planning Work Program (UPWP), the Transportation Improvement Program (TIP), and the Long-Range Transportation Plan (LRTP), as well as other elements of the transportation planning process. The CAC meets on a quarterly basis to provide public input at all stages of the planning process.
CARB	CARBON REDUCTION GRANT PGM
CARL	CARB FOR URB. LESS THAN 200K
CARN	CARB FOR RURAL AREAS < 5K
CEI	Construction Engineering Inspection
CIP	Capital Improvement Program: The CIP is a multi-year schedule of capital improvement Project, including priorities and cost estimates, budgeted to fit the financial resources of the community. This plan is updated annually and is part of the County's Comprehensive Plan.
CM	Congestion Mitigation. The CMP is a management system to improve traffic operations and safety by either strategies that reduce travel demand or the implementation of operational improvements.
CMAQ	Congestion Mitigation and Air Quality Improvement Program. The FAST Act continued the CMAQ program to provide a flexible funding source to State and local governments for transportation Project and programs to help meet the requirements of the Clean Air Act.
CMP	Congestion Management Process: The CMP is a management system and process conducted by metropolitan planning organizations (MPO), such as the Hernando/Citrus MPO, to improve traffic operations and safety by either strategies that reduce travel demand or the implementation of operational improvements.
CMS	CMS Congestion Management System.
COOP	Continuity of Operations Plan: The COOP establishes policy and guidance to ensure the execution of mission essential functions for the Hernando/Citrus MPO if an emergency in Hernando County threatens or incapacitates operations, and to direct the relocation of selected personnel and resources to an alternate facility capable of supporting operations.
CPG	Consolidated Planning Grant: The CPG enables FDOT, in cooperation with the MPO, FHWA, and FTA, to annually consolidate Florida's FHWA PL and FTA 5305(d) metropolitan planning fund allocations into a single grant that is administered by the FHWA Florida Division.
CST	Construction
CTC	The Community Transportation Coordinator (CTC) is the agency or organization in each county responsible for ensuring that coordinated transportation services are provided to serve the transportation disadvantaged.
CTD	Commission for Transportation Disadvantaged: The CTD is the State-level policy board for the coordination of transportation services for persons who because of disability, age or income are unable to transport themselves. The CTD adheres to the policies and procedures as set out in Chapter 427 F.S. and Rule 41-2, F.A.C.
CTST	Community Traffic Safety Team: The CTST is a locally based group of highway safety advocates who are committed to solving traffic safety problems through a comprehensive, multi-jurisdictional, multi-disciplinary approach. Members include city, county, state, private industry, and citizens. The common goal of each CTST is to reduce the number and severity of traffic crashes within their community.

APPENDIX D GLOSSARY OF TERMS, ABBREVIATIONS, FUNDING TYPES/CODES, AND ACRONYMS		TIP FISCAL YEARS 2025-2029 HERNANDO/CITRUS MPO
D	UNRESTRICTED STATE PRIMARY	
DBE	DBE Disadvantaged Business Enterprise.	
DDR	DDR – DISTRICT DEDICATED REVENUE District Dedicated Revenue. Those state revenues which are collected pursuant to Section 206.608, Florida Statutes, are allocated directly to the districts, and to the maximum extent feasible, in the county where the proceeds were collected, without being reduced by any other requirements. DDR, statutorily known as the "State Comprehensive Enhanced Transportation Systems Tax", in addition to highway uses, may also be used for district public transportation projects to meet the required statewide minimum distribution of 15% of state funds for public transportation.	
DEM	DEM Environmental Mitigation	
DEO	Department of Economic Opportunity.	
DIH	STATE IN-HOUSE PRODUCT SUPPORT	
DPTO	STATE - PTO	
DOPA	Designated Official Planning Agency: The DOPA is the entity responsible for transportation disadvantaged planning in a given area. In the urbanized areas of the state, the planning agencies are metropolitan planning organizations (MPOs).	
DS	DS - STATE PRIMARY HIGHWAYS & PTO	
DSB	Design-Build	
DU	DU State Primary / Federal Reimbursement	
EPA	EPA Environmental Protection Agency	
ETDM	ETDM Efficient Transportation Decision Making. Florida's ETDM process defines the procedures for planning transportation Project, conducting environmental reviews, and developing and permitting Project.	
FAA	FAA Federal Aviation Administration.	
FAST Act	FAST-Act - Fixing America's Surface Transportation Act: Signed into law in December of 2015 by President Obama that provided long-term funding for surface transportation and infrastructure, planning and investment.	
FAULTING	Faulting is the vertical misalignment of pavement joints, applicable to certain types of concrete pavements	
FDOT	Florida Department of Transportation: FDOT is the State of Florida's multi-modal transportation agency. Organizationally, it is composed of one central office in Tallahassee, seven district offices, and Florida's Turnpike Enterprise.	
FHWA	Federal Highway Administration: The FHWA is the Division of the U.S. Department of Transportation responsible for administrating federal highway transportation programs under Title 23 U.S.C. and Title 49 U.S.C.	
FLAP	FEDERAL LANDS ACCESS PROGRAM	
FLP	The term "FLP" represents the freight, logistics and passenger operations program.	
FTA	Federal Transit Administration - The FTA is the Federal entity responsible for transit planning and programs under Title 49 U.S.C.	
FTE	Florida's Turnpike Enterprise: Florida's Turnpike Enterprise (FTE) manages Florida's Turnpike System and acts as a separate business unit of the Florida Department of Transportation (FDOT). FTE is responsible for all operations on every FDOT-owned and operated toll road and bridge. The FTE 5-year work program (2016-2020) contains more than \$3.7 billion in capital improvements, which include widening the mainline roadway, new interchanges, safety improvements, resurfacing improvements, and maintenance.	
FTP	Florida Transportation Plan: The FTP is the state's long-range plan guiding Florida's transportation future. The FTP is a plan for all of Florida – and affects every resident, business, and visitor.	
FY	A fiscal year (FY) is used in government accounting, which varies between entities and for budget purposes. It is also used for financial reporting by businesses and other organizations.	
GIS	Geographic Information System is a framework for gathering, managing, and analyzing data. Rooted in the science of geography, GIS integrates many types of data. It analyzes spatial location and organizes layers of information into visualizations using maps and 3D scenes.	
GFEV	GEN. FUND EVEHICLE CHARG. PGM	
GFSA	GF STPBG ANY AREA	
GRSC	GROWTH MANAGEMENT FOR SCOP	
GMR	GMR Growth Management for SIS	
GPC	GPC General Planning Consultant	
HPMS	HPMS Highway Performance Monitoring System. The primary purpose of the HPMS is to serve data and information needs to reflect the condition and operating characteristics of the nation's highways. HPMS data supports the analyses needed for the biennial condition and performance reports to Congress.	
HSP	HSP Highway Safety Program	
ICAR	ICAR Intergovernmental Coordination and Review and Public Transportation Collaborative Agreement.	
IIJA	IIJA Infrastructure Investment and Jobs Act (IIJA) The Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Law (BIL), was signed into law on November 15, 2021.	

ITS	Intelligent Transportation System: ITS is the use of computer and communications technology to facilitate the flow of information between travelers and system operators to improve mobility and transportation productivity, enhance safety, maximize the use of existing transportation facilities, conserve energy resources and reduce adverse environmental effects; includes concepts such as “freeway management systems,” “automated fare collection,” and “transit information kiosks.”
JPA	Joint Participation Transportation Agreement: A contract between the department and a public transportation system for either operations or capital assistance needed for implementation of a service project or projects. Each agreement shall include, but not be limited to, a project budget, method of payment, and period of performance
LCB	Local Coordinating Board: The purpose of the coordinating board is to provide advice and direction to the <u>Community Transportation Coordinator concerning the coordination of transportation services.</u>
LEP	Limited English Proficient: LEP refers to individuals who do not speak English as their primary language and have a limited ability to read, speak, write, or understand English
LF	LOCAL FUNDS
LFP	LFP – LOCAL FUNDS FOR PARTICIPATING
LOPP	LOPP List of Priority Projects. The LOPP is a list of priority Project developed in coordination with the MPO Board and committees.
LOS	Level of Service - a qualitative assessment of a road's operating condition, generally described using a scale of A (little congestion) to E/F (severe congestion).
LRTP	LRTP - Long-Range Transportation Plan: In accordance with 49 USC 5304(f), the LRTP provides for the development and implementation of the multimodal transportation system, including transit, highway, bicycle, pedestrian, and accessible transportation. This plan must identify how the transportation system will meet the economic, transportation, development, and sustainability goals – among others – for a 20+-year planning horizon.
LTTR	LOTTR Level of Travel Time Reliability. LOTTR is the percent of person-miles on the Interstate system that are reliable, also referred to as the percent of person-miles on the non-Interstate NHS that are reliable.
MAP21	MAP-21 Moving Ahead for Progress in the 21st Century Act.
MPO	MPO - Metropolitan Planning Organization: The MPO is the forum for cooperative transportation decision-making, required for urbanized areas with populations over 50,000.
MPOAC	MPOAC - Metropolitan Planning Organization Advisory Council: The MPOAC is a statewide transportation planning and policy organization created by the Florida Legislature pursuant to Section 339.175(11), Florida Statutes, to augment the role of individual MPOs in the cooperative transportation planning process. The MPOAC assists MPOs in carrying out the urbanized area transportation planning process by serving as the principal forum for collective policy discussion.
MSC	Miscellaneous(grants-in-aid)
NHFP	NHFP National Highway Freight Program. The purpose, among other goals, of the National Highway Freight Program (NHFP) is to improve efficient movement of freight on the National Highway Freight Network (NHFN). <a href="https://ops.fhwa.dot.gov/freight/pol_plng_finance/policy/fastact/s1116nhfguidance">https://ops.fhwa.dot.gov/freight/pol_plng_finance/policy/fastact/s1116nhfguidance</a>
NHFP	NHFP National Highway Freight Program. The purpose, among other goals, of the National Highway Freight Program (NHFP) is to improve efficient movement of freight on the National Highway Freight Network (NHFN). <a href="https://ops.fhwa.dot.gov/freight/pol_plng_finance/policy/fastact/s1116nhfguidance">https://ops.fhwa.dot.gov/freight/pol_plng_finance/policy/fastact/s1116nhfguidance</a>
NHPP	NHPP-IM – NATIONAL HIGHWAY PERFORMANCE PROGRAM-M National Highway Performance Program. IM, Bridge Replacement, National Highway -Map 21
NHS	NHS - National Highway System: Specific major roads to be designated September 30, 1995; the NHS will consist of 155,000 (plus or minus 15%) miles of road and represents one category of roads eligible for Federal funds under ISTEA.
NTD	In 1974, Congress established the National Transit Database (NTD) program to collect financial, operating, and asset information on transit agencies. Congress based the NTD program on the Uniform Financial Accounting and Reporting Elements (FARE), a Project initiated by the transit industry and funded by the UMTA. The NTD has become the Nation's primary source of information on transit agencies.
PD&E	PD&E Project Development and Environment. The PD&E is a corridor study to establish conceptual design for a roadway and to determine its compliance with Federal, State, and local environmental permits, as required.
PD&E	Project Development & Environment
PE	PE Preliminary Engineering/Design. Preliminary engineering is the location, design, and related work preparatory to the advancement of a project to physical construction. Preliminary engineering includes preliminary and final design, both defined in 23 CFR 636.103, and other project-related work leading to physical construction. This includes costs to perform studies needed to address requirements of the National Environmental Policy Act (NEPA) and other environmental laws. It may include advertising and other pre-award work such as bid analysis, although it is also acceptable to include this work as construction engineering costs.
PE	Preliminary Engineering

APPENDIX D GLOSSARY OF TERMS, ABBREVIATIONS, FUNDING TYPES/CODES, AND ACRONYMS		TIP FISCAL YEARS 2025-2029 HERNANDO/CITRUS MPO
PHED	Peak Hour Excessive Delay - is a term for traffic congestion measured by the annual hours of PHED per capita on the NHS. Excessive delay is based on travel time at 20 miles per hour or 60 percent of the posted speed limit travel time, whichever is greater, during in 15-minute intervals per vehicle. [23 CFR 490.705 and 490.707]	
PKBD	Parkway Master Bond Fund	
PKED	Parkway - Feeder Rd	
PKYI	Parkway Turnpike Improvement	
PKYR	Parkway Renewal and Replacement	
PL	PL Planning - Federal Highway Administration planning funds, also called Section 112 funds "PL."	
PPP	A Public Participation Plan is a document developed in consultation with all interested parties, and shall provide that all interested parties have reasonable opportunities to comment on the contents of the transportation plan.	
PSR	Present Serviceability Rating - a quality rating applicable only to certain lower speed roads.	
PTGA	Public Transportation Grant Agreement is an agreement between an agency and FDOT that establishes a public transportation Project and responsibilities related to the Project. A PTGA defines the scope, budget, funding source, and any legal provision necessary for the Project.	
ROW	ROW - Right-of-Way: Real property that is used for transportation purposes, defines the extent of the corridor that can be used for the road and associated drainage.	
RRR	RRR Resurfacing, Restoration and Rehabilitation	
RRU	Railroad and/or Utilities	
RTA	RTA - Regional Transportation Analysis: The Regional Transportation Analysis (RTA) promotes transportation planning both within and among the counties that make up the Tampa Bay Region. The RTA provides a forum for the coordination of proposed transportation improvements - both highway and transit - that span multiple jurisdictions. Another important function of the RTA is that it provides for the development of a powerful, regional travel demand-forecasting model, the Tampa Bay Regional Planning Model.	
SA	STP, ANY AREA	
SCED	2012 SB1998-SMALL CO OUTREACH	
SCOP	SCOP – SMALL COUNTY OUTREACH PROGRAM	
SCTPA	SCTPA Sun Coast Transportation Alliance - Formerly known as the West Central Florida Chairs Coordinating Committee (CCC)-is an effort to address the transportation challenge on a regional, long – range basis. Issues such as personal mobility, access to jobs, goods movement, emergency evacuation, and growth management are some of the concerns addressed by the CCC, which is made up of the chairpersons from Metropolitan Planning Organizations and Transportation Planning Organizations (MPOs and TPOs) and their affiliated, transportation-related organizations. It serves eight counties: Citrus, Hernando, Hillsborough, Manatee, Pasco, Pinellas, Polk, and Sarasota.	
SCWR	SMALL COUNTY WATER RESOURCES	
SHSP	SHSP - Florida Strategic Highway Safety Plan: The SHSP is the statewide plan focusing on how to accomplish the vision of eliminating fatalities and reducing serious injuries on all public roads. The SHSP is updated at least every five years by FDOT in coordination with statewide, regional, and local safety partners. The SHSP is focused on the roadway component of transportation safety. Safety on other modes of transportation is covered by other plans.	
SIB1	STATE INFRASTRUCTURE BANK	
SIS	SIS - Strategic Intermodal System: The SIS is a Florida network of high-priority transportation facilities, including the State's largest and most significant commercial service airports, spaceport, deep-water seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways, and highways.	
SIS	Strategic Intermodal System	
SL	STP, AREAS <= 200K	
SM	STBG AREA POP. W/ 5K TO 49,999	
SN	STP, MANDATORY NON-URBAN <= 5K	
SR2T	SAFE ROUTES - TRANSFER	
SRTS	Safe Routes to School	
STIP	State Transportation Improvement Program	
TA	Transportation Alternatives (TA): As defined under 23 U.S.C. 101(a)(29) (MAP-21 1103), these are specific activities which can be funded with Surface Transportation Program (STP) funds; activities include pedestrian/bicycle facilities, recreational trails program, Safe Routes to School (SRTS) activities, railway corridor preservation, construction of turnouts, overlooks and viewing areas, control/removal of outdoor advertising, historic preservation and rehabilitation of historic transportation facilities, invasive species control, archeological activities relating to impacts from eligible transportation Project, mitigation of highway storm water runoff water pollution, and reduce vehicle-caused wildlife mortality, planning, designing and construction of boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.	
TAC	TAC - Technical Advisory Committee: A standing committee of most MPOs, function is to provide advice on plans or actions of the MPO from planners, engineers, and other staff members (not general citizens).	

APPENDIX D GLOSSARY OF TERMS, ABBREVIATIONS, FUNDING TYPES/CODES, AND ACRONYMS		TIP FISCAL YEARS 2025-2029 HERNANDO/CITRUS MPO
TALL	TRANSPORTATION ALTERNATIVES POPULATION <200,000	
TALT	Transportation Alternatives	
TAM	TAM - Transit Asset Management: Transit Asset Management is a business model that uses the condition of assets to guide the optimal prioritization of funding at transit properties and keep transit networks in a State of Good Repair (SGR).	
TBRPC	Tampa Bay Regional Planning Council: TBRPC was established as Florida's first regional planning council in 1962 when representatives from St. Petersburg, Clearwater, and Tampa recognized the need for regional coordination. TBRPC is one of ten regional planning councils in Florida.	
TD	Transportation Disadvantaged: Those persons who because of physical or mental disability, income, status, or age are unable to transport themselves or purchase transportation and are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are disabled or high-risk or at-risk as defined in Section 411.202, Florida Statutes.	
TDLCB	TDLCB - Transportation Disadvantaged Local Coordinating Board: The Transportation Disadvantaged Local Coordinating Board (TDLCB)s are the technical level review Boards established, consistent with Florida Statute, Chapter 427. The respective Boards oversee the activities of the Community Transportation Coordinator (CTC) and the overall Transportation Disadvantaged (TD) service program. The MPO serves as the Designated Official Planning Agency (DOPA) for the transportation disadvantaged program for both Hernando and Citrus County and functions as the appointing authority for both Boards, the TDLCBs meet on a quarterly basis.	
TDM	TDM - Transportation Demand Management: Transportation demand management, traffic demand management or travel demand management is the application of strategies and policies to reduce travel demand, or to redistribute this demand in space or in time. In transport, as in any network, managing demand can be a cost-effective alternative to increasing capacity.	
TDP	TDP - Transit Development Plan: The State of Florida Public Transit Block Grant Program was enacted by the Florida Legislature to provide a stable source of funding for public transit. The Block Grant Program requires public transit service providers to develop, adopt, and annually update a 10-Year Transit Development Plan (TDP). Under legislation that became effective February 20, 2007, the TDP must undergo a Major Update every five years. In the interim years, an update is to be submitted in the form of a progress report on the 10-year implementation program of the TDP.	
TDSP	TDSP - Transportation Disadvantaged Service Plan: The TDSP is a tactical plan with components of development, service, and quality assurance. It outlines and evaluates the services provided to the Transportation Disadvantaged population by the CTC. Every five years a new TDSP is developed and updated annually by the CTC, the planning agency and the LCB. Thus, the LCB can guide and support the CTC in implementing coordination efforts or locally developed service standards that are consistent with the needs and resources of the community.	
TIP	TIP - Transportation Improvement Program: A priority list of transportation Project developed by an MPO that is to be carried out within the four-year period following its adoption; must include documentation of Federal and State funding sources for each Project and be consistent with adopted MPO Long Range Transportation Plan (LRTP) and local government comprehensive plans.	
TMA	TMA - Transportation Management Area: A TMA is designated by the U.S. Secretary of Transportation for an urbanized area with a population of at least 200,000. Congress provided for this greater role by MPOs through a certification review aimed at formalizing the continuing oversight and day-to-day evaluation of the planning process. MPOs attaining certification enjoy certain benefits, but they also incur additional requirements beyond those of smaller urbanized areas for congestion management, project selection, and certification.	
TRIP	TRIP - Transportation Regional Incentive Program: TRIP was created in 2005 to improve regionally significant transportation facilities in "regional transportation areas". State funds are available throughout Florida to provide incentives for local governments and the private sector to help pay for critically needed Project that benefit regional travel and commerce. The Florida Department of Transportation (FDOT) will pay up to 50 percent of the non-federal share of Project costs for public transportation facility Project.	
TRT	TRT Technical Review Team	
TTTR	Truck Travel Time Reliability is the consistency or dependability in travel times for trucks, as measured from day-to-day and/or across different times of the day.	
UPWP	UPWP - Unified Planning Work Program: A Unified Planning Work Program (UPWP) is an annual or biennial statement of work identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of the planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds.	
USDOT	UNITED STATES DEPARTMENT OF TRANSPORTATION: Federal agency that oversees the administration of federal programs managing highways, air travel, railroads, maritime activity and other transportation modes. The FHWA and FTA operate as part of USDOT.	
ZDATA	ZDATA - Zonal Data: The information needed to describe the traveling public is commonly known as the zonal data and it includes household, person, vehicle, and travel related characteristics. The other is the supply side of the transportation systems represented by multimodal transportation networks.

## Annual Road Resurfacing Program

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T1993-12	Active		No

#### Project Description:

Resurfacing/maintenance of existing asphalt roads. Road resurfacing is funded from gas tax and ad valorem revenue. Prioritized resurfacing helps to reduce cost of maintaining existing County roads and keep roads from deteriorating to the point where major repairs or reconstruction becomes necessary.

The County is issuing an RFQ for Engineering services to evaluate and inventory paved county roads and develop a pavement preservation program. This analysis will review the roads to be evaluated following ASTM E3303 and will require annual Consultant update/maintenance.

Functionally Classified Roadway improvements as needed. Funded from gas tax revenue at 500,000 per year. The County has more than 300 miles of collector and arterial roadways which require periodic localized maintenance and repair. The BOCC directed staff to set a 20 year goal. Additional funding sources will be needed to meet the 20 year goal.

## Bridge/Guardrail/Handrail Repair Program

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T1993-14	Active		No

#### Project Description:

Maintenance for twenty-nine (29) county bridges as needed. Since the current maintenance program has been so successful, future repair costs may remain constant at \$50,000 per year. Funds are used to correct bridge deficiencies identified on Florida Department of Transportation (FDOT) bi-annual bridge inspection reports and make other repairs as necessary throughout the year. Guardrail and handrail installation repair as needed at \$100,000 per year. The County has nearly 200 sections of guardrails which require periodic maintenance and repair. The bridge/guardrail/handrail repair program will be funded from gas tax revenues.

Requested funding is necessary for Engineering and Permitting associated with repairs needed on bridges: 024015 - Ft Island Tr \$100,000; 024020 - Stokes Ferry \$100,000; 024022 - Turner Camp \$100,000

## Re-Marking /Striping Existing County Roads

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T1993-17	Active		No

#### Project Description:

Restripe existing county roads and other traffic safety related projects as directed by the Board of County Commissioners. Restriping improves safety by replacing worn or non-reflective striping to meet state requirements. This project is funded by gas tax revenue.

### Funding Source

	CCF	FY 24/25	FY 25/26	FY 26/27	FY 27/28	FY 28/29	Total

## Intersection Improvements

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T1993-32	Active		No

#### Project Description:

Intersection improvements as needed. Funded from gas tax revenue at \$50,000 per year. Construct intersection improvements to increase or improve traffic flow and safety. Projects are determined on an as needed basis.

## Gas Tax Funding - Road Maintenance

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T1993-98	Active		No

#### Project Description:

A portion of the gas tax revenue is transferred to the Road and Bridge Fund for Road Maintenance Division's purchase of materials for maintenance of County infrastructure. This project provides funding for the Road Maintenance Operational Budget.

## 2015 Transportation Bonds

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2012-02	Active		No

#### Project Description:

On October 13, 2015 the County issued \$10,580,000 in debt, at an interest rate of 3.50%, for the County Road 491 widening improvement project. These bonds mature on October 1, 2035 and are secured by a Covenant to Budget and Appropriate all legally available non-ad valorem revenues. The County plans to use gas tax revenues for the debt service payments.

## Gas Tax Funding - Transit Operations

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2015-23	Active		No

#### Project Description:

A portion of the 1-6 cents Local Option Fuel Tax is funding the cash match for County Bus (transportation) operations. This funding is authorized by Section 336.025 (7), F.S.

## N Dunkenfield Ave - Resurfacing SCOP

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2020-01	Active		No

#### Project Description:

N. Dunkenfield Ave (SCOP Grant from W. Venable St. to 250 L.F. N. of N. Marion Way (1.9 miles). FDOT SCOP grant will provide a portion of the funding and the County will provide the remaining plus contingency using gas tax revenue. The Resurfacing Program has been in effect for over 15 years and the County has been using SCOP funding for resurfacing for over 10 years. Annual Road Maintenance costs for FY 2018/2019 through 2022/2023 has been estimated at \$12,500 yearly. Once resurfacing has been completed in FY 2023/2024, the annual maintenance cost decreases to \$9,700.

## CR 491 & Hampshire Blvd Turn Lanes

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2021-05	Active		No

#### Project Description:

The purpose of this project is to improve the left turn lane on CR 491 and construct a right turn lane on Hampshire Blvd. Project costs are as follows Engineer Design and Permitting \$140,000; Construction \$700,000. Right-of-way acquisition: (Does not include business damages or litigation costs \$80,000). Construction Administration/Inspection/Testing \$112,000.. This County road is identified as an arterial roadway and is an evacuation route for the citizens of Citrus County in the case of emergencies or storm events. Additional road maintenance will be required in future years after completion of construction. Annual maintenance cost is estimated to be after completion of the project.

## 2020 Transportation Bonds

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2021-10	Active		No

#### Project Description:

On May 11, 2020 the County issued \$26,680,000 in debt, at an interest rate of 3.00%, for the County Road 491 widening improvement project. These bonds mature on October 1, 2037 and are secured by a Covenant to Budget and Appropriate all legally available non-ad valorem revenues. The County plans to use gas tax revenues for the debt service payments.

## Bridge Repairs - Ozello 009, 044 & 045

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2024-04	Active		No

#### **Project Description:**

The proposed project is to provide funding for maintenance improvements to three bridges on Ozello Trail.

009 Colleen Canal \$270,000 (includes contingency)

044 Black Creek \$110,000 (includes contingency)

045 Saltwater Bay \$350,000 (includes contingency) DOT has inspected the noted county owned bridges and has recommended various maintenance improvements be addressed. Repair plans and permit/exemptions are complete.

Construction

## Guardrail & Handrail Installation Repair

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2024-06	Cancel		No

#### Project Description:

Guardrail and handrail installation repair as needed. Project will be funded from gas tax revenue at 100,000 per year. The County has nearly 200 sections of guardrails which require periodic maintenance and repair. Facility improvements may be staff initiated or concerned citizens contract their County Commissioners who generate a request to Public Works to review and provide solutions to correct the guardrail/handrail for the safety of the public.

## Functionally Classified Road Repair

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2024-07	Cancel		No

#### Project Description:

Functionally Classified Roadway improvements as needed. Funded from gas tax revenue at 500,000 per year. The County has more than 300 miles of collector and arterial roadways which require periodic localized maintenance and repair. Facility improvements may be staff initiated or concerned citizens contact their County Commissioners who generate a request to Public Works to review and provide solutions to correct localized pavements and roadway deficiencies on collector and arterial roadways.

## Kensington/ Rehill - Resurfacing SCOP

### Transportation Funds

Project Number:	Project Status:	Strategic Element:	Master Plan:
T2025-01	Active		No

#### Project Description:

Kensington/Rehill SCOP grant from SR44 to Citrus Hills Blvd (1.81 miles) FDOT SCOP grant will provide up to 75% of the funding and the County will provide the remaining funding plus a 10% contingency using gas tax revenue. The resurfacing program has been in effect for over 15 years and the County has been using SCOP funding for resurfacing for over 10 years. Annual road maintenance cost for FY 24/25 through FY 28/29 has been estimated at \$11,854 yearly. Once resurfacing has ben completed in FY 28/29, the annual maintenance cost decreases to \$9,000.

APPENDIX H  
CITRUS COUNTY TRANSIT

TIP FY 2024-FY2029  
HERNANDO/CITRUS MPO

**Citrus County Transit Schedule of Capital Improvements FY 2025 - FY 2029**

**Project Description:** FY 2024/2025 project is based on the purchase of 3 wheelchair accessible passenger buses. All vehicles are ordered through the Florida Department of Transportation (FDOT) approved vendors and meet the FDOT / Federal Transit administration (FTA) criteria for replacement. FY 2024/2025 through FY 2028/2029 projects will replace 18 buses for both Para transit and the Deviated Fixed Route. FDOT recommends replacement of buses after 150,000 miles and/or five (5) years, whichever comes first. Using State toll revenue/transportation development credits, the purchase of buses/capital equipment is 100% funded by FTA/FDOT grants. FTA requires annual performance targets for the replacement of rolling stock (buses).

**Project Duration:** Ongoing

**CIE Requirement:** No

**Master Plan:** Yes

## TRANSPORTATION IMPROVEMENT PROGRAM

### Review Checklist

---

## TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

---

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

**Editorial:** The MPO may address comments regarding grammatical, spelling, and other related errors, but this would not affect the document's approval.

**Enhancement:** Comments may be addressed by the MPO but would not affect the approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

**Critical:** The comment **MUST** be addressed to meet the minimum state and federal requirements for approval. The reviewer must clearly identify the applicable state or federal statutes, regulations, policies, guidance, or procedures to which the document does not conform.

If a question is categorized, a comment must accompany it. If a question is answered with "no," a comment must accompany it.

## TRANSPORTATION IMPROVEMENT PROGRAM

### Review Checklist

---

#### TIP Narrative

---

Does the TIP begin with a statement of purpose (provide a prioritization of projects covering a five-year period consistent with the LRTP, containing all transportation projects funded with FHWA & FTA funds and regionally significant projects regardless of funding source)? [23 CFR 450.326(a)]; [49 USC Chapter 53]

Yes  No

[No comment](#) [Click here to enter comments](#)

Page Numbers: 13

[Click here to enter notes](#)

Did the MPO develop the TIP in cooperation with the state and public transit operator(s), who provided the MPO with estimates of available federal and state funds for the MPO to develop the financial plan? [s. 339.175(8) FS]; [23 CFR 450.326(a)]

Yes  No

[No comment](#) [Click here to enter comments](#)

Page Numbers: 19

[Click here to enter notes](#)

Does the TIP demonstrate sufficient funds (federal, state, local, and private) to implement proposed transportation system improvements, and identify any innovative financing techniques by comparing revenues and costs for each year? It is recommended that the TIP include a table(s) that compares funding sources and amounts, by year, to total project costs. [23 CFR 450.326(k)]; [23 CFR 450.326(j)]; [s. 339.175(8)(c)(3) FS].

Yes  No

[No comment](#) [Click here to enter comments](#)

Page Numbers: 110

[Click here to enter notes](#)

Does the TIP describe the project selection process and state that it is consistent with federal requirements in 23 CFR 450.332(b) and 23 CFR. 450.332(c) for non-TMA MPOs?

Yes  No

Critical

**Hernando Citrus is not in the TMA and will need to only use 23 CFR 450.332 (b) on page 13.**

*MPO Response 5/24/24: Reference removed.*

## TRANSPORTATION IMPROVEMENT PROGRAM

### Review Checklist

---

Does the TIP include the FDOT Annual List of Obligated Projects or a link? The annual listing is located for download [HERE](#). [23 CFR 450.334]; [s. 339.175(8)(h), FS]

Yes  No

[No comment](#) [Click here to enter comments](#)

Page Numbers: 19, 111-120

[Click here to enter notes](#)

Was the TIP developed with input from the public? [23 CFR 450.316]; [23 CFR 450.326(b)]; The document should outline techniques used to reach citizens (flyers, websites, meeting notices, billboards, etc.)

Yes  No

[No comment](#) [Click here to enter comments](#)

Page Numbers: 13

[Click here to enter notes](#)

Does the TIP discuss the MPO's current FDOT annual joint certification and past FHWA/FTA quadrennial certification (for TMA MPOs)? For TMA MPOs the TIP should include the anticipated date of the next FHWA/FTA quadrennial certification.

Yes  No

[No comment](#) [Click here to enter comments](#)

Page Numbers: 19

[Click here to enter notes](#)

Does the TIP discuss the congestion management process? All MPOs are required to have a congestion management process that provides for the effective management and operation of new and existing facilities using travel demand reduction and operational management strategies. [s. 339.175(6)(c)(1), FS]

Yes  No

[No comment](#) [Click here to enter comments](#)

Page Numbers: 19

[Click here to enter notes](#)

Does the TIP discuss the development of Transportation Disadvantaged (TD) services, a description of costs and revenues from TD services, and a list of improvements funded with TD funds? [s. 427.015(1) FS AND 41-2.009(2) FAC]

Yes  No

[No comment](#) [Click here to enter comments](#)

Page Numbers: 19-172; 19-20

[Click here to enter notes](#)

Does the TIP discuss how once implemented, the MPO will make progress toward achieving the performance targets for:

- ✓ Safety performance measures
- ✓ System performance measures
- ✓ Bridge performance measures
- ✓ Pavement performance measures
- ✓ State asset management plan
  - Including risk to off-system facilities during emergency events (if applicable)
- ✓ State freight plan

Yes  No

If the MPO incorporated the [TIP Performance Measures Template](#) directly or adapted it to suit their needs, they would have met the requirements. [23 CFR 450.326(c)]

[No comment](#) [Click here to enter comments](#)

Page Numbers: 26-61

[Click here to enter notes](#)

Does the TIP discuss the anticipated effect of achieving the performance targets identified in the LRTP, linking investment priorities to those performance targets for:

Yes  No
